19th July 2013

Dear Mr Glasspool,

The Council's Elephant and Castle Project Team have secured planning approval (13/AP/0935) for the erection of a 3m high security fence that will be used to secure the estate during the demolition works. The preparatory works for the erection of this fence is scheduled to commence next week and will take up to six weeks to complete. During this time there will be further notifications of the access arrangements for you via the pedestrian and vehicle gate that will be positioned at the Deacon Way and Heygate Street junction. It is anticipated that the permanent security fence will be complete by September.

To ensure the safety and security of the fence contractors throughout this work period and to address on-going incidents of anti-social behaviour a temporary fence will be erected along Walworth Road and Heygate Street on Monday 22nd July. In addition the current on-site security personnel will be increased to ensure a 24 hour presence across the estate. Once erected your only means of entrance to the estate will be via a vehicle gate positioned at the Deacon Way / Heygate Street entrance. A security contractor will be positioned at this entrance to ensure that your access to the estate is not impeded.

Regards
